Lynette Boggs-McDonald believes that there is one set of rules for her and one set of rules for the rest of us. She thinks she is above the law!

From our perspective she is no better than the four former Clark County Commissioners, Lance Malone, Erin Kenny, Dario Herrera and Mary Kincaid-Chauncy, who were recently investigated for corruption and found guilty.

Lynette just doesn't get that **it is not okay** to accept a \$100,000 loan and 4.7 acres of land from a person whose project she has voted to support at the County Commission!

Lynette just doesn't get that **it is not okay** to live in a house outside her district!

Lynette just doesn't get that **it is not okay** to use campaign contributions to pay for her personal childcare!

Lynette just doesn't get that **it is not okay** to ignore disclosure laws when it is her employer coming before the County Commission!

Lynette just doesn't get that **it is not okay** to take contributions from developers, time after time, either just before or just after she voted to support their projects, at the County Commission!

In our opinion, if you have had enough of the corruption at the County Commission and you are tired of ethically challenged elected officials, on November 7 you can vote for change.

**On November 7, vote NO!
Let Lynette know there is one set of rules for all of us!**
